Raptor is tough

We had only one goal: to create the best protective mask on the market. It took dozens of prototypes to achieve maximum strength, but Raptor has proven itself as the best protection over off-the-shelf options or custom alternatives.

Powered by technology

We combined our clinical experience with advanced design and the newest technologies such as 3D printing, 3D scanning and digital design algorithms.

Offer Raptor

Introducing the advanced product your customers need. Establish yourself as a leader in sports protective devices by offering Raptor Mask.

We will make your business thrive. Simply provide us with a 3D scan or CT/MRI of your patient and any clinical requirements. We take care of the rest.
